Renewal of Matlab license

2017-03-27 - Burner EOAS - Comments (3) - General

If you are using a standalone version of Matlab and you need to renew your license:

- Open MATLAB
- Click on Resources
- Click on Help
- Hover over Licensing and then click on Update Current Licensing
- Select license 924490
- Update
- Restart Matlab

If you are not able to do it from MATLAB try this procedure:

1. Login to [MathWorks](#) using your UBC email address.
2. Go to My Account
3. Click on license 924490
4. Click on Install and Activate
5. Click on Resolve Connection Issue
6. Click on Activate to Retrieve License File

If you experience any problems , please contact the help desk at helpdesk@eoas.ubc.ca or through the help desk web site at helpdesk.eoas.ubc.ca.

5 years ago

- My Matlab license expired on May 1st instead of May 31!

- I cannot open Matlab anymore so I cannot used this solution: Help > Licensing > Update Current Licensing

- An alternative method is needed for Matlab activation after expiry.

I have the same situation as Masoud. My license has already expired so I cannot open the IDE

and update current license.
