SSMTP.eos.ubc.ca was down this morning -- back up now

2016-09-08 - Burner EOAS - Comments (0) - General

The outgoing mail server, [ssmtp.eos.ubc.ca](#), went offline earlier this morning and those people who are on the old email server could not send email. As of 9:15 AM this morning, September 8th, the outgoing mail service has been restored for anyone using the old mail server.

The new mail server, [exchange.eoas.ubc.ca](#), was unaffected.
