## UBC staff and faculty access to Imagine Premium

2016-10-06 - Burner EOAS - Comments (0) - General

UBC and the Faculty of Science has partnered with OnTheHub.com to offer faculty and staff access to Microsoft products under an educational license.

You can use your CWL user name and password to access your free Windows 10 Education entitlement (and other products), by going to the [Imagine Premium](#) web site. Items such as Windows 10 Education (32/64 bit), are free of charge; you can download a Windows 10 Education DVD to upgrade your Windows 10 Home or earlier Windows operating system.

Faculty and staff are encouraged to take advantage of this offer as part of our ongoing effort to encourage everyone to encrypt their hard drive data. If you require help or have any questions, please email [helpdesk@eoas.ubc.ca](mailto:helpdesk@eoas.ubc.ca).
